CHERRINGTON

CHERRINGTON BEACH CLEANERS

MODEL 440 XL

Cherrington lifts and screens the sand to screen-clean and sanitize your beach.

Efficient and economical beach cleaning using Cherrington Beach Cleaners is accomplished by lifting the sand from the beach, screening it through a powered oscillating screen, retaining all objects larger than the chosen screen size and then returning the sand to the beach.

Cherrington Beach Cleaners

Cherrington screeners are a uniquely efficient and economical choice for power screening in a variety of applications from beach cleaning to athletic field maintenance, horse track and arena screening, and seedbed prep.

You can't miss with a Cherrington screener - The proof is in the hopper. Quick-change wire screens are available in the following hole sizes to meet the demands of your specific job. 19 mm (already installed in the machine) and 13 mm (additionally delivered together with the machine). 10 mm und 25 mm (available as options).
