PistenBully®

Blade loader

The perfect attachment for transporting snow over short to medium distances on the slope, lift or car park, e.g. for replenshing worn-out spots or for shunting and clearing work.

Method

Together with the All-Way-Blade, the open blade loader amasses the snow. If enough is collected in the blade, the blade loader is hydraulically lowered to compress the snow in the blade.
When the blade loader is closed, the blade can be raised without any of its frosty load being lost. Once at its destination, the blade loader is opened and the snow dumped onto the worn-out slope section, before being spread using the blade. The blade loader is conveniently operated from within the driver's cab.

Design

The blade loader is designed to be fitted to the conventional U-blade or the All-Way-Blade on your PistenBully. It is easy to mount and dismount. What's more, you can decide to equip your vehicle with a blade loader at any time.

Dimensions and data:

Width:	approx. 4,200 mm	165 in.
Weight:	approx. 250 kg	550 lbs.
Capacity:	approx 2.5 m³	3.3 cu.yd.
Suitable for:	PistenBully 200/ 300/ 400/ 600	
	PistenBully PB 240 - 280 D
