

Snowbucket

The transport genius.

www.pistenbully.com

PistenBully®

Snowbucket

The perfect attachment for transporting snow over short to medium distances on the slope, lift or car park, e.g. for replenishing worn-out spots or for shunting and clearing work.

Method

The Snowbucket can be set at two different levels via hydraulic cylinders. The bucket is lowered to collect the snow and, once full, is tipped and raised simultaneously to ensure safe transport of its load. The bucket is then tipped back down to empty. All working movements are controlled from the comfort of the driver's cab. A high level of accuracy is possible thanks to the positioning of the Snowbucket in driver's direct field of vision.

Design

The Snowbucket is connected directely to your PistenBully via the front quick-mount-system. The Snowbucket has a torsionally rigid, welded construction made from high-grade sheet steel. The entire unit is coated in anti-corrosion paint.

Dimensions and data:

Width:	approx. 4,200 mm	165 in.
Weight:	approx. 310 kg	684 lbs.
Capacity:	approx. 2.0 m³	2.6 cu.yd.
Suitable for:	PistenBully 200/ 300/ 400/ 600	
	PistenBully PB 240 - 280 D
