THE DIGITAL SOLUTION
FOR MAINTENANCE
AND YOUR WORKSHOP

360° MAINTENANCE
EASY. PRACTICAL. EFFICIENT.

Is the whole fleet and all my equipment fully operational? What tasks are upcoming? SNOWsat Maintain answers all your questions about maintenance – digitally. At the same time, you organize and streamline your operating procedures.

Our practical, intuitive, cloud-based solution tells you everything you need to know. Clearly. In real time. By app.

So you have a clear view of everything all the time – from administration through to maintenance of your vehicles and your equipment. This is another innovation that grew out of close cooperation with our clients. In the final analysis, they always know best what's important on and off the slopes.

APP

- Equipment status
- ToDo Management
- Inventory management
- Checklists
- Fluid tracking

Accessible at ▶ mobile.snowsat.com

01 EQUIPMENT MANAGEMENT

- Manufacturer-independent administration of all vehicles, auxiliary equipment and systems
- Traffic-light status indicator for equipment availability
- Service status display

02 TASK MANAGEMENT

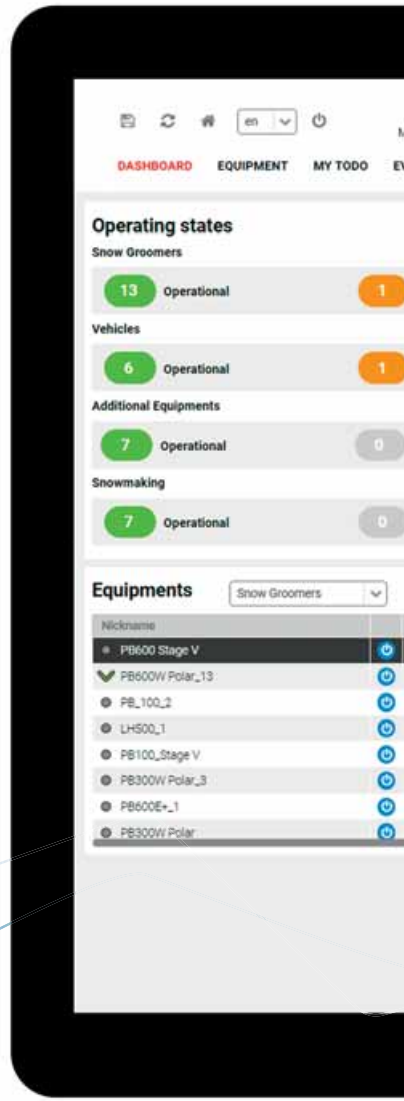

- Efficient control of all maintenance processes
- Creation, assignment, tracking and implementation of tasks (ToDo)
- Automatic actioning and feedback of customer service operations, repairs and materials procurement with Kässbohrer Geländefahrzeug AG and dealers

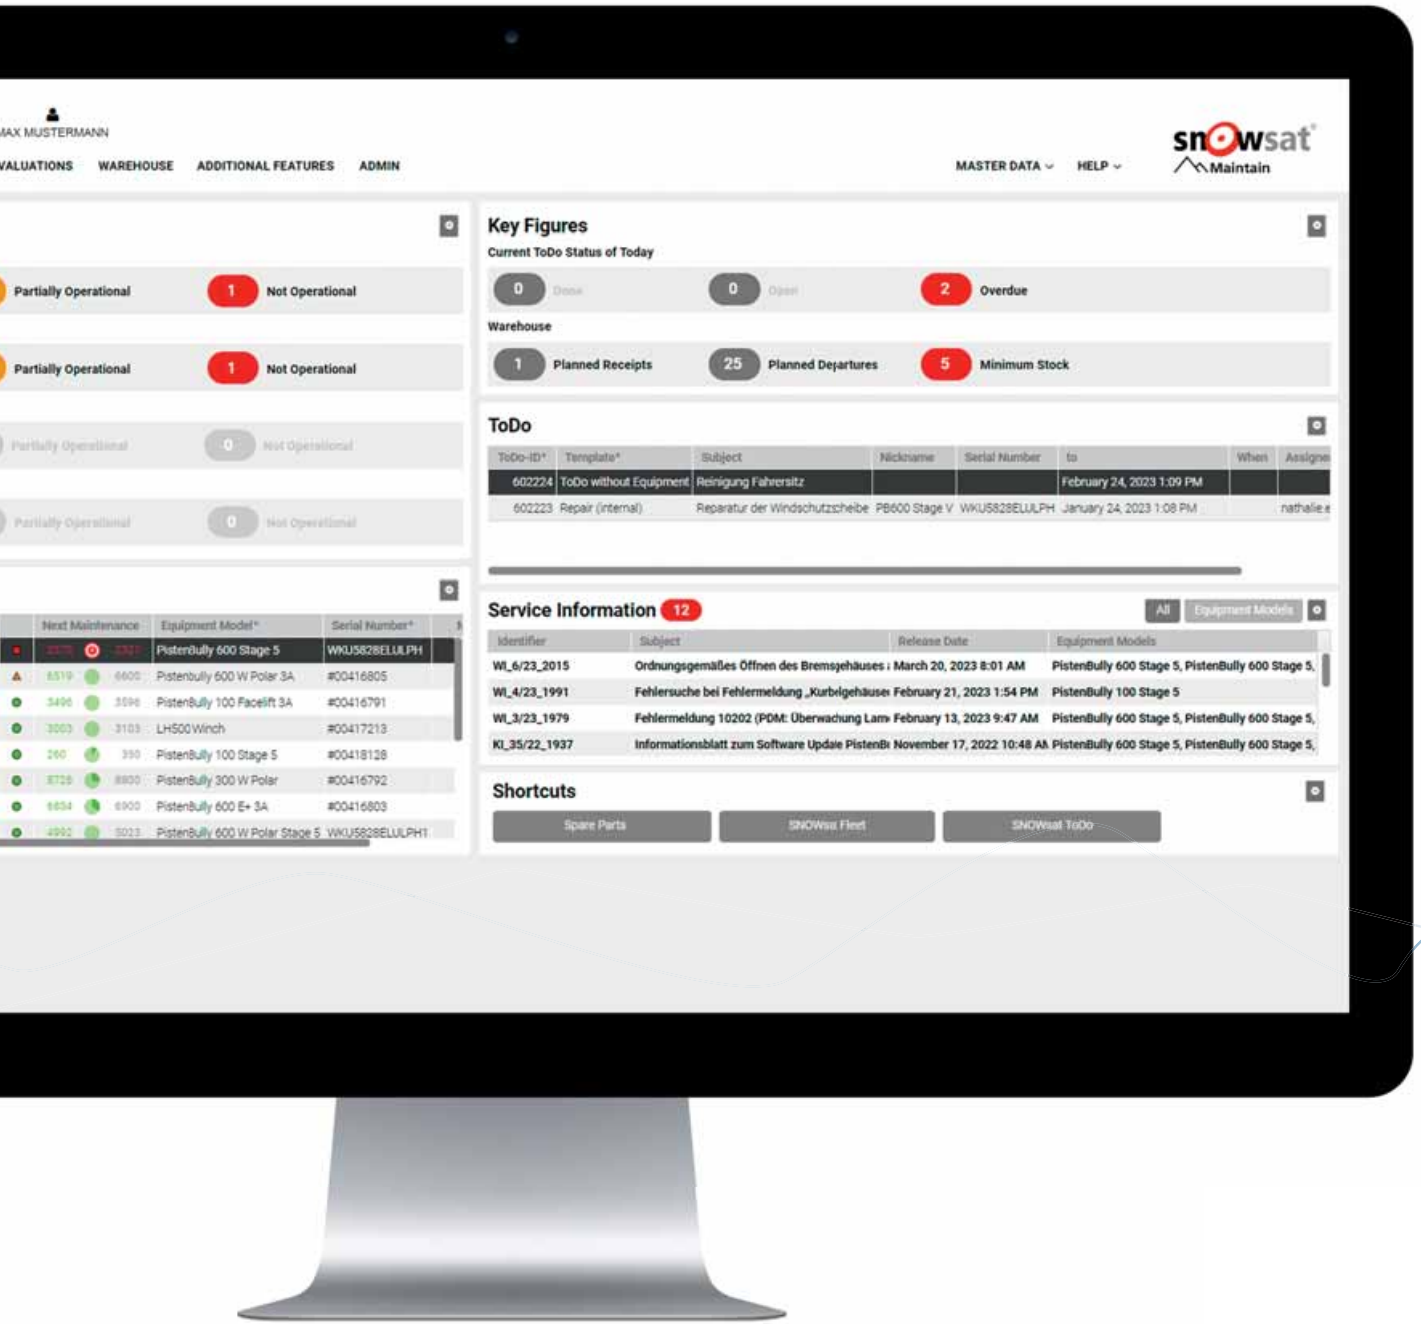

03 DIGITAL SERVICE RECORD

- Overview of the equipment's entire history
- Planning and control of maintenance jobs

04 MAINTENANCE SCHEDULE MANAGEMENT

- Provision of PistenBully maintenance schedules
- Creation of customer-specific maintenance schedules

05 TECHNICAL INFORMATION

- Equipment-specific manufacturer's information
- Upload and download own equipment documents and files

06 SPARE PARTS PROCUREMENT

- Integration with spare parts book and online shop of Kässbohrer Geländefahrzeug AG
- Provision of procurement parts lists for PistenBully out of service maintenance

07 INVENTORY MANAGEMENT

- Materials in and out postings
- Networking with spare parts book and online shop of Kässbohrer Geländefahrzeug AG
- Integration into existing inventory management systems

08 DATA EVALUATION

- Analyses of equipment data
- Analysis of all maintenance operations
- Equipment comparisons

WHAT OUR CUSTOMERS SAY

As easy as WhatsApp!
We used to communicate a lot over the phone. Sometimes that was like the game of telephone, where players pass on a message by whispering. A lot of information was lost on its way to the right employee. In Maintain, we can enter service orders as easily as WhatsApp messages!

STEFAN BEYWL, OPERATIONS MANAGER ARBER BERGBAHN, GERMANY

SNOWsat Maintain saves us a lot of time!
In the past, we had to regularly read the counter on 16 vehicles manually to determine the operating hours for the sake of maintenance planning. In SNOWsat Maintain, we see this information at the press of a button, and as a result we know exactly when each machine needs to be taken to the workshop, no matter where the machine is currently located.

INGO DÜRLINGER, SLOPE MANAGER OF SNOW GROOMERS, SCHMITTENHÖHEBAHN AG, AUSTRIA

SNOWsat Maintain helps us manage our fuel consumption, which we need for our tax reports.
Our maintenance used to be completely analog and we had to keep a logbook. Now the logbook, recording of operating fluids and the legally prescribed storage of data are completely covered by SNOWsat Maintain.

PATRICK GNOS, WORKSHOP MANAGER SAASTAL BERGBAHNEN AG, SWITZERLAND

The PRO ACADEMY gives you support for successful maintenance management with individualized consultation and training courses. Find out more now at ▶ www.proacademy.info
