

Road Pro 32

Snow plough

The Meyer® Road Pro 32™ isn‘t just a snow plow; it‘s a robust solution designed for municipalities and contractors using 10,000 to 26,000-pound GVW trucks. The Road Pro 32 offers unparalleled performance and durability for clearing side streets, parking lots, and cul-de-sacs, day or night.

Highlights

- Specifically engineered for **heavy-duty trucks**.
- Flared wing 32” **moldboard available in two lengths**
- Equipped with **2-in x 10-in heavy-duty hydraulic rams and six trip springs**
- Nite Saber® LED lights **for enhanced visibility during night operations**

Your benefits

- **Efficient:** Flared wing design for optimal snow rolling action
- **Rugged:** Heavy-duty rams and six trip springs ensure reliable performance.
- **Versatile:** Electric hydraulic system option enables easy integration and maintenance for vehicles without central hydraulics.
- **Peace of Mind**: Your investment is protected by an industry-leading 5-year warranty.

Performance features

Plow blade

The Road Pro 32 features a robust design that ensures strength and rigidity during operation, particularly in its bottom third, where impacts are most common. It has a flared-wing, 32” moldboard that is available in 8-ft, 9-ft, or 10-ft lengths, and its heavy-duty bracing and tubular construction can withstand nearly anything winter can throw at it. Additionally, the Road Pro 32 boasts continuously welded outer ribs and slot-and-tab construction, contributing to superior strength and a precision fit. Each plow is assembled using robotic welders for years of trouble-free service and pre-drilled holes make adding a snow deflector a breeze.
The Road Pro 32 is powder-coated with Meyer Dura-Slick™ paint (infused with Teflon®) to ensure exceptional snow rolling action. This blend of construction and coating technology give durable performance in nearly any winter condition.

Operating system

The Road Pro 32 is equipped with Meyer’s reliable Standard Operating System™. Its encased power unit features adjustable drop speed, and the pistol grip controller provides hands-free plowing.
The handset also includes double-click technology that automatically moves the moldboard in the desired direction without having to hold down the button. The Road Pro 32 is rounded out by Nite Saber® LED lights for superior night vision for safe and efficient operation.
