Skibox

The ideal solution to transport passengers' skis and snowboards safely and to create more space in the cab. The Skibox has enough room for 20 pairs of skis. The Akia can also be stored in this box when it is no longer needed.
Thanks to the skibox, the cabin will not be damaged and the equipment cannot be lost.
The Skibox is very easy to fit. Only 2 manifolds need to be inserted into the underframe of the passenger cab on the left and secured with one screw each.

Design:
This Skibox is made from aluminium plate. The Skibox is equipped with four stanchions so that the skis and snowboards can be safely stowed away. These can also be folded away if needed.
There are two handles, so it is easy to open.

Length:	2.105 mm
Height:	635 mm
Width:	635 mm
Width incl. holder / handles:	800 mm
Payload:	approx. 250 kg
Suitable for:	15 passenger cabin ROPS
	suitable for vehicles with new engine technology
