

IBS

Road maintenance truck

The patented Interchangeable Body System (IBS) is a game-changer for truck versatility. Its robust steel frame, coupled with a hinge and hydraulic dump cylinder featuring a winch system, facilitates rapid transformations. In just minutes, your truck can shift roles, seamlessly accommodating concrete mixers, dumpsters, fifth wheels, platforms, spreaders, tankers, and more. Engineered for both heavy-duty and light trucks, the IBS guarantees top-notch quality and adaptability, revolutionizing your fleet's functionality.

Highlights

- **Cost-effectiveness:** By enabling one chassis to serve multiple functions, the IBS ensures profitability of heavy vehicle investments.
- **Universal adaptability:** Designed for all truck brands and adapts to many types of equipment such as: concrete mixers, dumpsters, fifth wheels, platforms, spreaders, tankers, dump bodies and more.
- **Efficiency and Safety:** Seamlessly integrates with various equipment and truck sizes

Your benefits

- **Ease of Operation:** Changing equipment is normally done by a single operator and requires minimal training.
- **Short Change-over Time:** The transformation of the truck is done in under 10 minutes requiring no special tools.
- **Versatility:** One truck chassis can now carry multiple types of attachments for all types of work, both summer and winter.

Performance features

Product details

The Interchangeable Body System (IBS) offers unparalleled versatility and efficiency for heavy equipment applications. Featuring a robust hydraulic or manual winch for effortless loading and unloading of equipment, it ensures seamless operation across various tasks. The system is equipped with a hydraulic bar system with 1 1/4 studs, providing secure attachment and stability during use. Additionally, quick coupling accessory plates adapt swiftly to specific operational needs, enhancing adaptability and minimizing downtime. ELP's IBS empowers businesses to maximize the utility of their fleet with ease, making it an ideal choice for industries demanding flexibility and productivity.
